

Rules and Procedures for English Ridge Cemetery

June 29, 2021

Town of Marshall has responsibility for the maintenance and affairs of English Ridge Cemetery. The cemetery is located near the intersection of County Highways A and ZZ.

Standard lot size is 10' x 10'. Some lots in the old part of the cemetery are irregular sizes. Standard lots may be subdivided into two 5' x 10' plots. Full lots, 10' x 10', cost \$550. Plots, 5' x 10', are \$275. Each plot, 5' x 10', may contain one casket burial, or one casket burial plus one urn burial, or two urn burials. Each plot, 5' x 10', may contain only one stone. Marker blocks are set at the corners of each 10' x 10' lot.

There are still lots available in the old part of the cemetery. On irregular sized lots, the allowed number of burials per plot is at the discretion of the cemetery administrator.

There is a fee for perpetual maintenance of \$175 for each person buried. This fee is payable at the time the grave is opened and is usually paid by the funeral home. If an urn is presented for burial without the involvement of a local funeral home, the fee may need to be paid by the person requesting the burial.

All caskets must be contained in a vault or grave box.

Any stones or grave markers must be set inside the perimeter of the lot or plot. If a brass plaque is installed in addition to a stone, it must be adjacent to the stone.

US flags will be installed on veterans' graves before Memorial Day and taken down after Labor Day.
